

Lansing Cleaners

Serving the community with the finest dry cleaning services since 1946

Delivering it in CNG since 1993

**Our fleet running on CNG consists
of five utilimaster
step vans, and...**

**... three Chevy Express vans.
They are all powered by 4.3 V6 engines
using Eco-fuel's CNG systems.**

By the Numbers

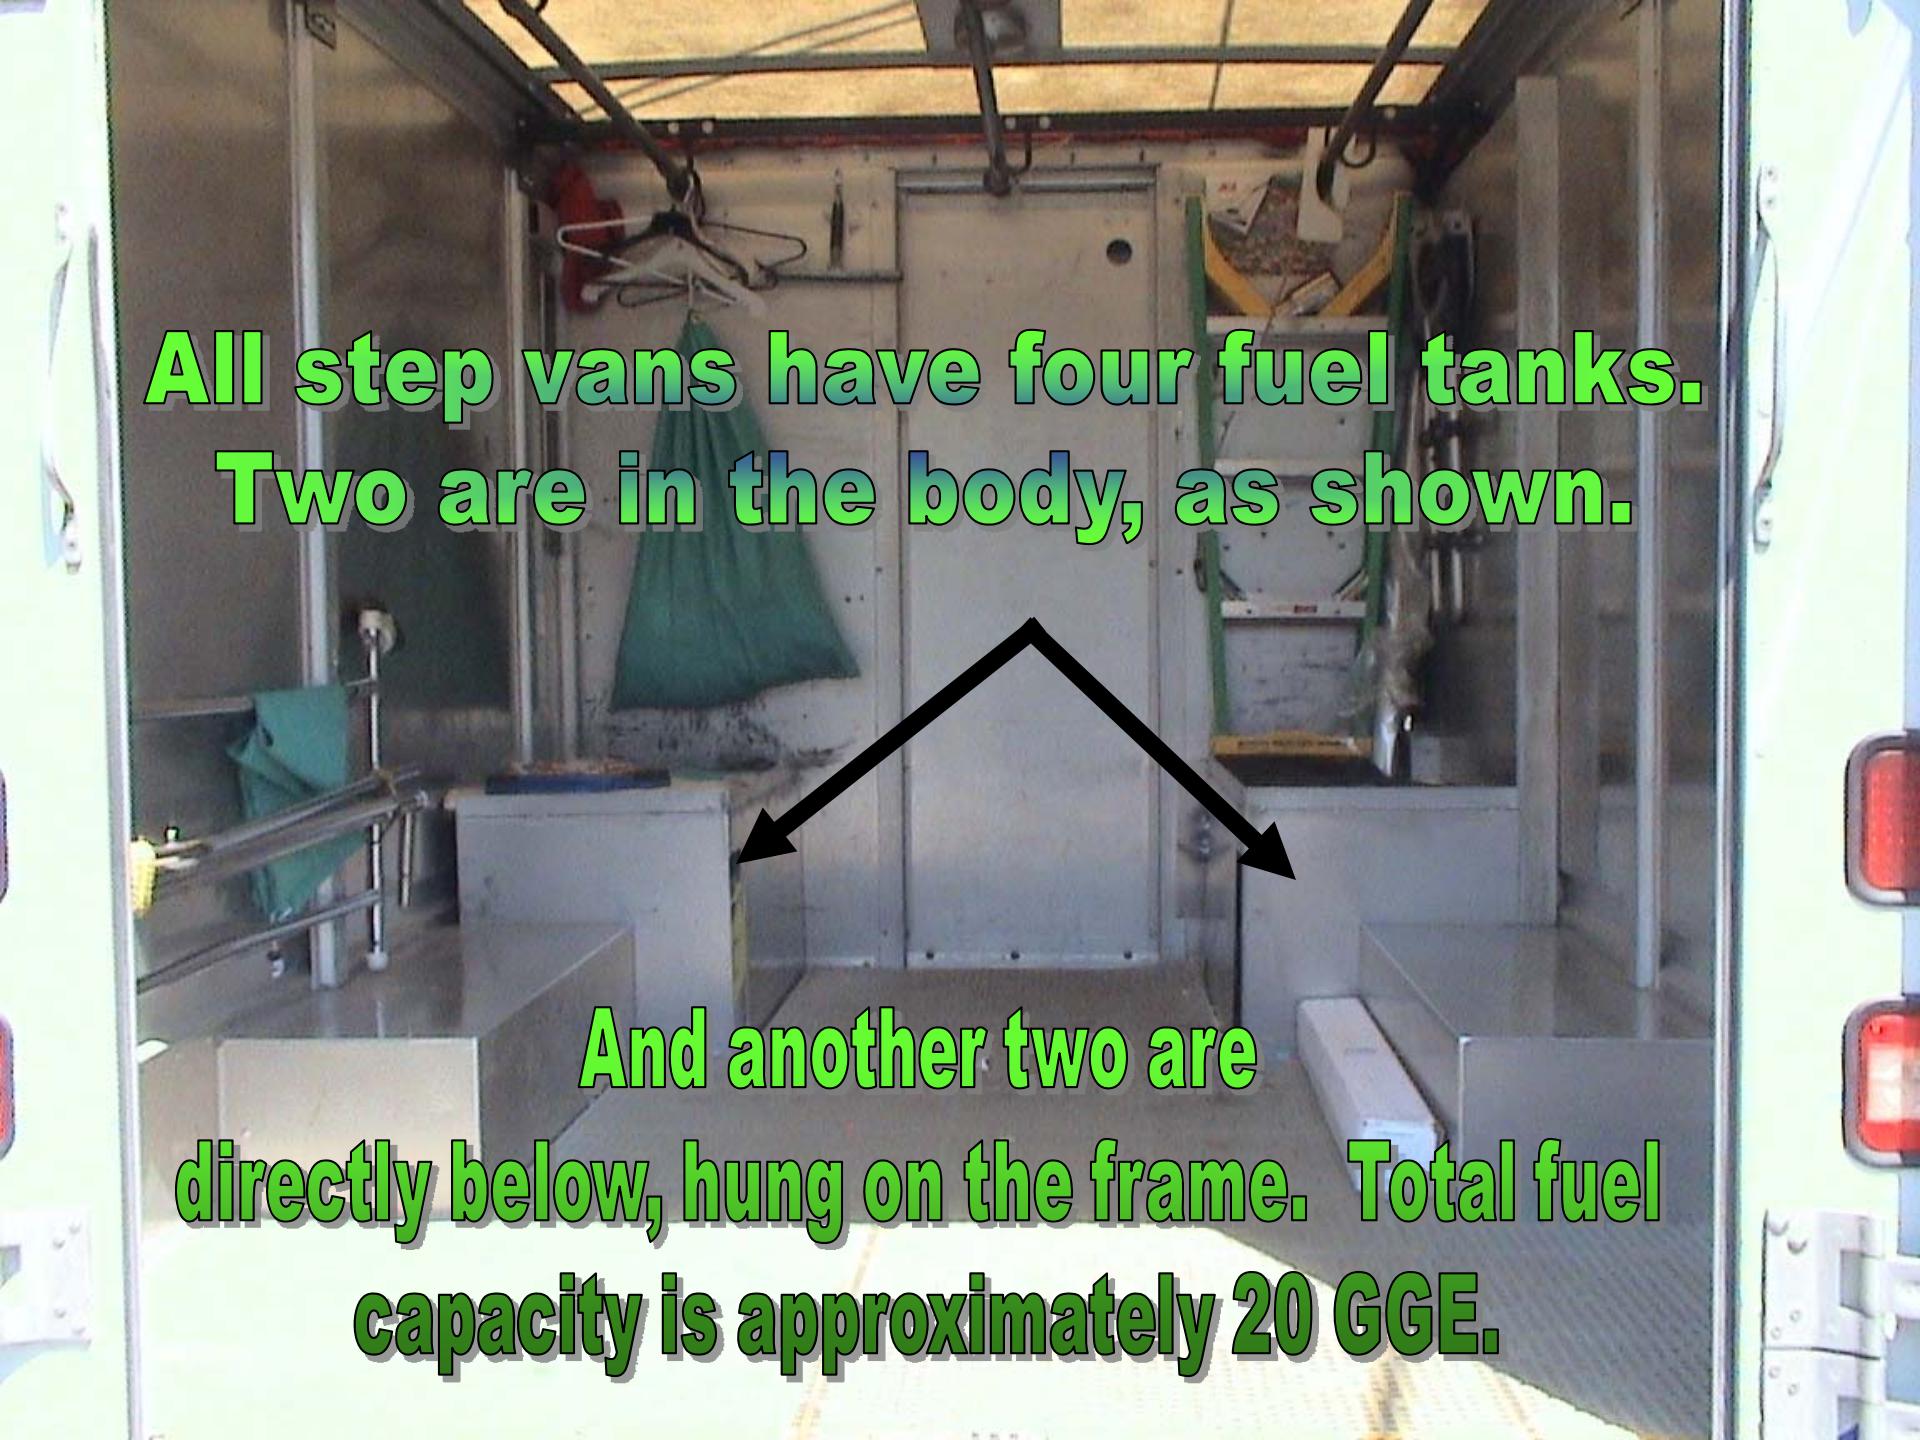

- 1995 – 380,000 miles*
- 1996 – 416,000 miles
- 1997 – 362,000 miles
- 1997 – 318,000 miles
- 1999 – 315,000 miles

FIRE RESTORATION
TAKE DOWN & REHANG
- DRAPERY SERVICE -

A photograph showing the interior of a step van. The van has a high roof and a metal frame. In the center, there are two large, rectangular fuel tanks mounted on the floor. A black arrow points from the text below to these tanks.

**All step vans have four fuel tanks.
Two are in the body, as shown.**

**And another two are
directly below, hung on the frame. Total fuel
capacity is approximately 20 GGE.**

Nine gallons of fuel
are stored here.

The other vans use two tanks
stacked behind the front seats.

- 2001 – 285,000 miles
- 2002 – 186,000 miles
- 2003 – 235,000 miles
